

Introducing [re]start: On track to find 1,000 jobs by 2018!

We find people jobs so you get paid.

"I had been unemployed for more than one year. My bills started to mount and my savings were all but gone. Then one day I received a call from Choice Recovery... I was informed that they assisted individuals with finding employment. I am currently three weeks employed on my new job. Thank you for caring!"

Carlos C., *Project Manager, IC Solutions*

"In a little over a year, our [re]start team has connected with thousands of out-of-work individuals sent to Choice Recovery with past-due accounts. With our help, hundreds are now re-employed, getting back on track and making strides to repay their bills."

Sarah Harkins., *[re]start Director*

At Choice Recovery, we feel a responsibility to do more than just collect money. We collect your outstanding debt by treating those we call like people—individuals who aren't paying their bills for a variety of reasons. We've found that the best way to help people pay their bill is simply to help them out of debt.

Introducing [re]start

Our [re]start specialists help find jobs for those in collections who are unemployed, but who want to regain control of their lives and finances. We help these individuals build compelling resumes, assist with job applications and more. All while providing support along the way.

**Recovering debt is what we do.
Transforming lives is who we are.**
